

Our mission

Create an autonomous decentralized lottery platform.

We want to make fair lotteries with high level of participants' gains, as well as to minimize losses receiving the prizes.

The lottery problems

- Is the winner random?
- Is it fair to dispose of less than 40-60% of the ticket sales by lottery?
- Huge spending on distribution network, offices, points of sale
- Difficulty of obtaining a prize
- High commissions and taxation — up to 50%

OUR SOLUTION

Our team will develop an ecosystem consisting of its own blockchain with masternode functions and hybrid POW/POS algorithm.

THIS WILL ALLOW:

- Make a transparent distribution system for awards, tickets sold, etc.
- Increase the chances of winning the jackpot 50 times

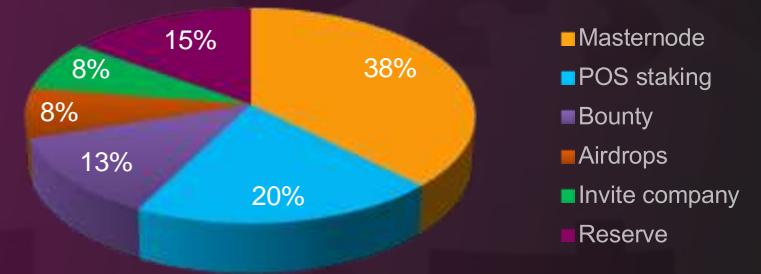

View the source code of the smart contract so that anyone can be sure of the fairness of the drawings.

Preserve the anonymity of the winners

85% of the amount of tickets sold to send to the jackpot

Make payments of winnings instantly and without the participation of third parties.

BENEFITS FOR INVESTORS

Investors at the PRESALE stage have a unique opportunity to buy a Masternode or a certain amount of GEX for POS-staking .

Blocks	Reward	Yield on 1 MasterNode, % annual		
		MN	POS	POW
0 - 50000	0.5	0.2	0.1	0.2
50001 - 70000	8	3.2	1.6	3.2
70000 - 200000	5	2	1	2
200001 - 460000	3	1.2	0.6	1.2
over - 460000	2	0.8	0.4	0.8

THE MAIN ADVANTAGES OF INVESTING

BENEFIT: the highest possible ROI is only at the initial stage of the project.

LUCK: the ability to use the generated tickets to participate in lotteries.

STABILITY: the " burning " system of GEX will contribute to the coin price stability.

CALMNESS: time-tested idea, millions of people have played and will play the lottery. We bring openness, increased payout ratios, anonymity, low tax rates.

ORIGINALITY: we create a lottery on the blockchain with hybrid POW/POS algo, which has no analogues.

SUFFICIENCY: a small aggregate offer of GEX of 5 million coins.

GUARANTEE: if a Soft cap of only 7.75 BTC is not reached - we will issue a refund.

TRUST: the project team is open, appropriate, has serious experience for implement the plans. The budget is calculated and well planned. Hard cap is just 21 BTC.
